

CERFA : Generating CERFAs

Features

CERFAs are French government forms.

This extension automatically pre-fills the relevant CERFAs with the available data, makes it easy to fill in the other fields, and stores the generated pdf document in the relevant customer file.

Four documents are currently available:

- the **CERFA n°13948 Attestation simplifiée** also known as **CERFA n°1301** (simplified certificate)
- **CERFA no. 13408**
- the **PV Réception Travaux** (Works Acceptance Report)
- the **reservations lifting form** for the Works Acceptance Report
- and **CERFA 15497**.

If you wish to include other CERFAs in the extension, please send your request to **dev@gestan.fr**.

Prerequisites

This extension works on Windows and Linux platforms, but not on Mac!

Before you can use it, you need to install the Java libraries, which you can find on [this page](#).

On the download page, choose the 64-bit “offline” versions for your particular platform, Windows or Linux. Below is the download page and the programs to download.

 Windows  Which download should I choose?			
	Windows Online filesize: 2.26 MB	Instructions	After installing Java, you may need to restart your browser in order to enable Java in your browser.
	Windows Offline filesize: 2.26 MB	Instructions	
	Windows Offline (64-bit) filesize: 38.41 MB	Instructions	
If you use 32-bit and 64-bit browsers interchangeably, you will need to install both 32-bit and 64-bit Java in order to have the Java plug-in for both browsers. » FAQ about 64-bit Java for Windows			

 Linux			
	Linux RPM filesize: 51.07 MB	Instructions	After installing Java, you will need to enable Java in your browser.
	Linux filesize: 48.03 MB	Instructions	
	Linux x64 filesize: 45.04 MB	Instructions	
	Linux x64 RPM filesize: 48.19 MB	Instructions	

 If, despite installing Java, you get an error from the **JavaCharge** function, check your version of Microsoft Visual C++ Redistributable. If you have a version prior to 2015, you can download the latest version by following [this link](#).

Latest Microsoft Visual C++ Redistributable version

The latest version is `v14.44.35211.0`

Use the following links to download this version for each supported architecture:

 Expand table

Architecture	Link	Notes
ARM64	https://aka.ms/vs/17/release/vc_redist.arm64.exe	Permalink for latest supported ARM64 version
X86	https://aka.ms/vs/17/release/vc_redist.x86.exe	Permalink for latest supported x86 version
X64	https://aka.ms/vs/17/release/vc_redist.x64.exe	Permalink for latest supported x64 version. The X64 Redistributable package contains both ARM64 and X64 binaries. This package makes it easy to install required Visual C++ ARM64 binaries when the X64 Redistributable is installed on an ARM64 device.

Download other versions, including long term servicing release channel (LTSC) versions, from my.visualstudio.com.

Use

Access : *Tools* → *Office automation* → *Create a Cerfa*

The screenshot shows the 'Cerfa creation' window. At the top, there's a dropdown menu for 'Type of CERFA form' set to 'CERFAN°13948*06 or n°1301'. Below this is a toolbar with icons for Print, Save, Copy, Zoom (100%), Page width, Entire page, Display mode (A page, Two pages), Thumbnails pane, Pages (1 / 4), and Tools. The main area displays a form titled 'ATTESTATION SIMPLIFIÉE' from the 'DIRECTION GÉNÉRALE DES FINANCES PUBLIQUES'. The form includes fields for client identity (Nom: LEUZE, Prénom: Lara, Adresse: 18, ter. rue Maurice Barrès, Code postal: 08000, Commune: CHARLEVILLE MEZIERES) and nature of the premises (Nature des locaux). The form is divided into sections: 'IDENTITÉ DU CLIENT OU DE SON REPRÉSENTANT' and 'NATURE DES LOCAUX'. The 'NATURE DES LOCAUX' section includes checkboxes for 'maison ou immeuble individuel', 'immeuble collectif', and 'appartement individuel', and a text area for 'autres (précisez la nature du local à usage d'habitation)'. The form is displayed in a preview mode, with a 'Save' button at the bottom left and a 'Close' button at the bottom right.

The Combo 1 allows you to select the type of CERFA to be completed. Selecting the CERFA allows you to select the Gestan document concerned, usually a customer invoice. The screen then displays the CERFA in the field provided. The document can then be modified until the CERFA is saved or printed.

The resulting PDF document can be printed and saved locally using the buttons linked to the PDF. The 2 button is used to save the document in the customer's documents in Gestan. The CERFA will then appear in the list of linked documents.

The 1 icon provides additional information on the CERFAs. Click on it to obtain :

- A link to any CERFA leaflet
- A link to any attached sheets

These are additional documents found on the [service public entreprise](#) and [service public particuliers](#) websites. The icon therefore only appears on CERFAs where additional documents are available. Hovering over the icon displays details of these documents.
