

RELAUTO: Automatic mass invoice reminders

Overview

This extension allows you to send invoice reminders automatically.

Configuration

Configuration is done via the Tools → Application settings → Extension settings menu.

Additional parameters

Extension RELAUTO

Setting the reminder cycle

Reminder every

☒ 1 Send log file

Invoicing manager

Setting up reminder emails

Message

PJ

Confirm ✓ Close ✕

This screen allows you to set the reminder cycle (expressed in days). The reminder can generate a log file that will be sent to the billing manager if the 1 box is selected.

This screen also allows you to configure the sending of reminder emails: the sender, the standard message used, any attachments, the type of customer address, the sending of a confirmation of receipt, and the priority level.

Use

Access: Business → Mass invoice reminders

[illegible]

This screen displays the list of invoices to be reminded, as well as the number of reminders sent and the date of the last reminder if the invoice is checked (i.e. if the reminder is activated for the invoice).

Clicking on the **Resend** button automatically updates the list of invoices to be resent.

Reminders are sent when Gestan is opened.

Versions

Version	Date	Comments
3.A1.02.03	03/12/25	Migration to A1 format
3.15.46.01	08/04/25	First beta version
