The equipment you offer for rental (the “[machines-location](#)”) can be grouped into kits.

For example, an “Interview” kit might include a camera, microphone and tripod, while a “Wedding” kit might include 500 plates, 500 place settings, 500 glasses, 50 tables and 50 tablecloths.

This screen lets you declare a machine kit, and then attach machines to it.

When you register a new rental, you'll be able to declare the rental of a kit, and therefore go much faster and without errors in the items you rent.
