

Reallocation of contacts by region

 **Fix Me!** A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the [forum](#).

Has your new sales manager decided to reorganize the geographical areas assigned to your sales reps?

This screen is designed to manage this situation, allowing you to reassign contacts based on zip code criteria.

Using the screen

//**Access** : Tools → Administration → Mass data processing → Contacts → Reassign by region //

The **Assign to user** combo lets you select the user to whom contacts meeting the criteria will be reassigned.

The criteria are **country code** or **post code**. Multiple zip codes separated by a semicolon are possible.
