

Rebooking entries

 **Fix Me!** A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the [forum](#).

This screen allows you to reallocate entries en masse, from one account assignment to another.

Using the screen

Access : *Tools → Administration → Mass data processing → Accounting → Re-assign entries*

Indicate the date range you wish to process in the **Between And** fields.

Then select the account assignment to be taken into account and the target account assignment.

At the end of processing, any entry with a date within the specified range will move from imputation 1 to imputation 2.

If no entries remain in imputation 1, the imputation can be deleted.
