

User availability

Fix Me! A1 proofreading not yet effective for this page. In the meantime, you can ask any questions on the [forum](#).

This window is available from the context menu of the user combo, from the action, maintenance action, and intervention sheets.

It makes it easier to select a user for the action or intervention, among those:

- who are not absent
- who have no other interventions to make
- who have no other actions to take

Using the screen

Below is an example of access, from the context menu of the list of users of an action sheet.

The screenshot shows the 'Fiche d'intervention' window. The 'Intervenant' field is set to 'Jean TRANCENE (JT)'. A yellow arrow points from this field to the 'Sélection utilisateur' dialog box. The dialog box has a title bar 'Sélection utilisateur' and a sub-header 'Disponibilités'. It shows a date range 'Du 06/01/26 08:00 Au 06/01/26 18:00' and a checkbox 'Dispos seulement'. Below is a table with columns: D, Code, Nom, Prénom, Abs, Actions, Interventions. The table lists four users: AA ARNOUT Aurélie (Abs: X), BB BORDESSOULE Baptiste (Actions: 1, Interventions: 1), JT TRANCENE Jean (Actions: 1), and VV VANDENBROUCK Victoire. The dialog has 'OK' and 'Annuler' buttons.

D	Code	Nom	Prénom	Abs	Actions	Interventions
●	AA	ARNOUT	Aurélie	X		
●	BB	BORDESSOULE	Baptiste		1	1
●	JT	TRANCENE	Jean		1	
●	VV	VANDENBROUCK	Victoire

The screen shows unarchived users only.

For each user and for the specified date/time range:

- it checks absences (Abs column)
- it counts unfinished actions
- it counts unfinished interventions

Column **D** indicates the availability (presence + no interaction or action) of the user.

You can modify the date/time range, and recalculate the arrangements with the 1 button.

The **Available only** check box allows you to display only available users.

For performance reasons, actions and interventions older than 30 days from the start date of the range are not taken into account.
